How to calculate the cost for your concerts

- Using the attached or online worksheet, determine how many students will attend each concert.
- Apply your school's free & reduced lunch percentage to determine the number of free/paid tickets.
- Multiply the number of paying students by the ticket cost. Put this amount in the total cost column.
- Determine how many chaperones will attend (1 per 10 students suggested), and find out the total number of seats your group will need.
- Title I schools are eligible for a transportation subsidy, subject to available funding. Check here to apply:
